

SYLLABUS MAPPING

JoVE is committed to providing users with everything they need to benefit from their subscription, including a syllabus mapping service **at no additional cost to the library**. Our subject-matter experts with advanced degrees in a variety of science disciplines can map JoVE content to any syllabus or lab training program.

JoVE Playlists

All JoVE syllabus maps are delivered as digital playlists. It is the most convenient and user-friendly way to streamline teaching, training and research with JoVE.

With text labels for playlists, users can:

- Guide students through the playlist material
- Add memos and notes
- Create engaging class assignments
- Reduce the amount of supervision required for training programs

Learn more about playlists [here](#).

Benefits of mapping JoVE videos to a syllabus

Streamlined lesson planning: Faculty do not have to spend time on finding relevant content; JoVE provides ready-to-use playlists customized to their syllabus

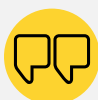

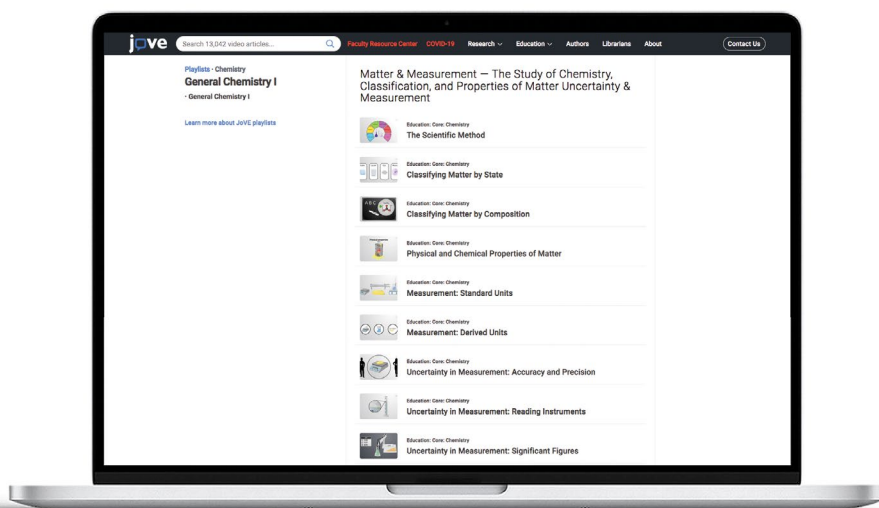

Syllabus-related **videos brought together in one list** makes it easy to quickly locate the videos whenever required

JoVE playlists can be used in **any learning environment**; once created, they can also be reused

JoVE-created playlists can be **modified, updated and repurposed** by faculty and lab managers

“I have made extensive use of the General Chemistry playlist that provides an extensive range of short videos that covers the entire content of the general chemistry course.

So JoVE can meet needs in both the lecture and virtual (or face-to-face) lab environments.”

— Richard Jarman
Professor of Chemistry
College of DuPage, USA

Pre-made syllabus maps for commonly-taught courses and training programs, covering a variety of subjects, can be found [here](#).

To request a syllabus or training program map, please contact our Customer Success Team at customersuccess@jove.com.

JoVE is the leading producer and publisher of video resources with the mission to increase the productivity of research and education in science, medicine, and engineering.
